Rio de Janeiro, August 29th, 2022.

DEAR READER,

My name is Martha de Andrade Peçanha Rodrigues, I'm 35 years old, I work at Human Resources for 10 years, however I'm starting a professional career at the technology field, so I'm searching for an opportunity in the area. I graduated in **Technologist in Systems Analysis and Development**, and I'm currently studying Computer Engineering (3º Period).

I'm fluent in English, and I have ease to learn new things. I have professional experience at management as well as in assistance, and I work well in a team. My experience in HR gives me a differential in the performance of my activities, because a good interpersonal relationship is essential to deal with diversity in the professional and personal environment.

Despite my absence of experience in the intend area, I'm constantly studying, always looking for knowledges about methods and programming languages that can help me on my professional growth. I'm sure that it given the chance I'll give my best aiming to reach the given goals with excellency and efficiency.

Thanks in advance for the time in reviewing my resume.

Sincerelly,

Martha de Andrade Peçanha Rodrigues
